BAHIA 46

Elegant design for full comfort

Designed by the internationally recognised architects O. Flahault and Joubert-Nivelt, the Bahia 46 is the result of many years of experience and study. The carefully designed interior and exterior ergonomics combine in perfect harmony and the flowing, elaborate design means you can enjoy an exclusive, safe catamaran that is preferred by the most demanding and experienced sailors for many round-the-world projects.

Excellent on-board space and convenience

See how easy it is to move around on board thanks to the elegant, spacious stern and the open cockpit opposite a lounge that is perfect for extremely comfortable living. The interior glows with an abundance of natural light and 360° views and offers completely independent areas: open-plan kitchen with cocktail bar, a lounge that seats ten guests at the table and an excellent chart table that is independent for navigation purposes. The spacious cabins are completely insulated for privacy and comfort and are in keeping with high-standard hire services to guarantee maximum comfort on board.
