110v or 220v AC double outlets in cabins, galley and switch panel.

2 x Hardwired shore powerlines - 3 core 50ft / 15m, heavy duty.

Leopard 4600

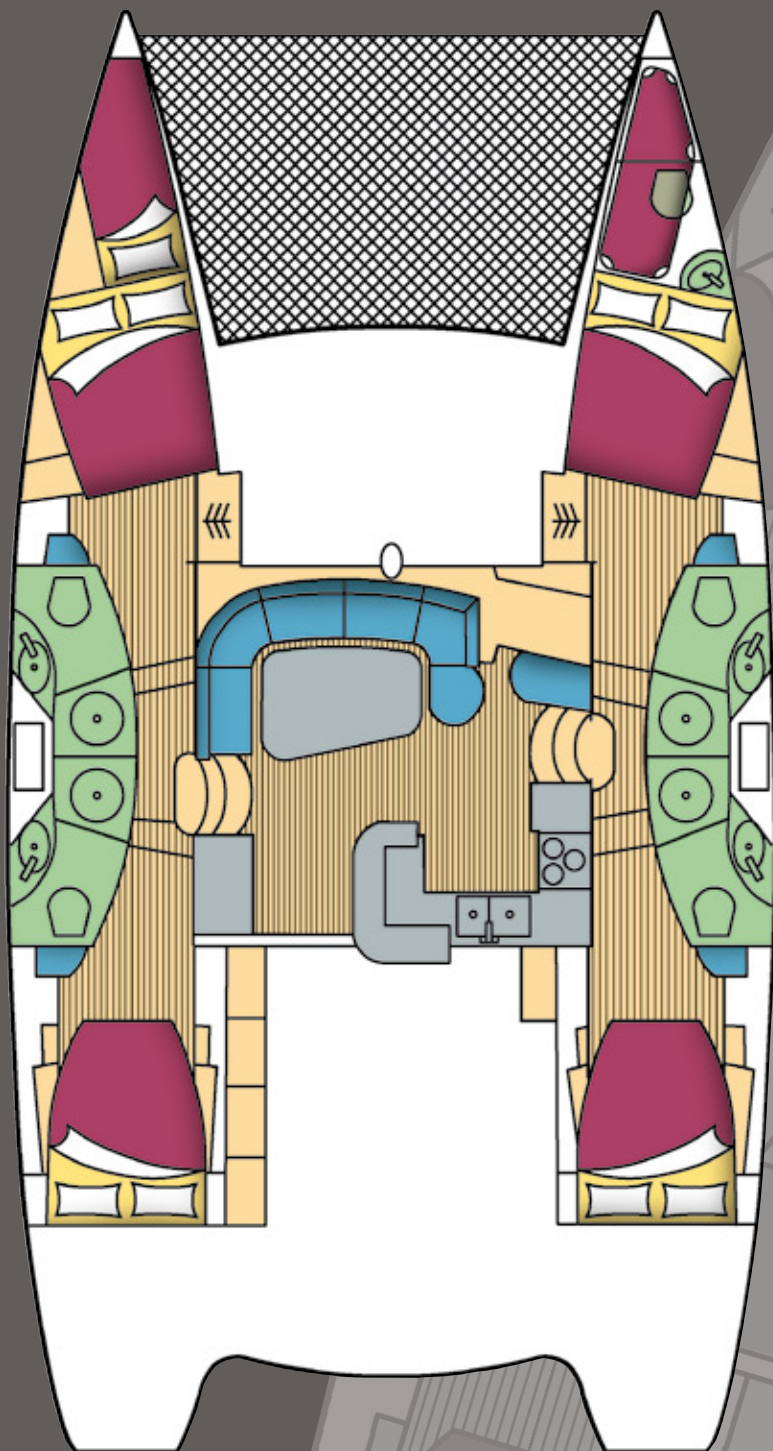

CATAMARAN LEOPARD 4600

Designed in collaboration with architects Morrelli & Melvin and builders Robertson & Caine, the Sunsail 464 is a blue water cruising catamaran that combines spacious living accommodation with high quality construction and great performance.

Down below, the Sunsail 464 features four en suite staterooms and additional accommodation in the forward bows. The fully fitted modern galley has been designed to be able to serve both inside and outside equally conveniently and incorporates a bar counter to make service even easier. The saloon also hosts the full size navigation station and luxurious seating.

The Sunsail 464 is powered by twin 55 Hp Yanmar engines, is fitted with full electronics, and features a raised helm station. This station is open to the cockpit and benefits from an extended hardtop roof and all control lines being led aft to provide excellent visibility and ease of manoeuvring. There is walk-through access to the spacious cockpit and aft bathing platform, connecting the two transoms.
